Dear Commissioner (Ms.) Henney:

As a member of the Center for Science in the Public Interest (CSPI) and an avid reader of health and wellness issues--both alternative and mainstream, I strongly urge you to BAN the use of medically useful antibiotics in animal feed. We are having a serious national problem with bacteria that has become resistant to antibiotics. This is no longer about being Organic or not--this is about life or death. It is that serious. I support the petition filed by CSPI and hope you realize the gravity of this problem.

Sincerely,

--Simone Ramel
